LYNDON  
DESIGN

## AGENT

An established collection of contemporary and versatile seating, Agent elegantly captures the combination of slimline upholstery with exquisite European Oak or American Black Walnut timber framework. Ideal for meeting spaces, breakout areas and visitor seating.

## AGENT PLACES OF POSSIBILITY

Classic, yet suited to modern spaces. Understated, yet more than a mere wallflower. This is the Agent range – a collection of products with versatility captured in its name.

### ...an agent of lightness

The soft, sweeping curves of the upholstered shell. The simple, unassuming lines of the timber frame. There is a sense of 'lightness' with Agent – a sense of ease, a feeling of space being freed. There is an implicit invitation to come, sit and open yourself up to what might happen next.

### ...an agent of exchange

Every workplace has a heart – like the kitchen in a home – where the real business takes place. When it comes to modern workplaces, these are the breakout areas –

the very spaces where Agent is most often found. Whether it's for socialising, dreaming up new ideas, or fixing urgent company issues – Agent is where the big exchanges, the important conversations are had.

Agent does more than just provide chairs, tables, and benches – it serves as a gateway to places of possibility.
