

A modern desk setup featuring a laptop, a potted plant, and a desk lamp. The desk is dark and reflective. A laptop is open on the right side. To the left of the laptop is a small potted plant with green, feathery foliage in a dark, textured jar. A desk lamp with a white, conical shade is positioned above the plant, casting a warm glow. In the background, another desk lamp and some office supplies are visible but out of focus. The overall scene is clean and professional.

Who We Are

Think Furniture is an independent company specialising in the creation of new work environments. Our independent status ensures our clients are able to access a vast range of office furniture from established brand names through to the latest design led ways of working.

We work on a consultative basis, so we listen to your needs and requirements first then research the market to generate the most appropriate solution – tailored to your brief. This independence also means that we have vast experience in dealing with, and managing, many different manufacturers to ensure best service levels ,pricing and delivery.

Think Furniture was established in 2006 and has grown in size and reputation with an enviable list of clients and projects. The owners and staff share a passion to provide the best possible customer service as we believe that our own commercial success can only be achieved with a happy client.

The Directors at Think Furniture have supplied and installed over £40 million worth of furniture to hundreds of different clients.

How We Can Help

Think Furniture offer Furniture Procurement Services; we aim to understand how you work and then evaluate any areas where improvements can be made.

By consultation we would look to:

- Review current work procedures and better understand company values and culture.
- Help evaluate how this might translate into the new space and consider what furniture and practices could be retained /repeated.
- Work alongside the D&B company to help develop a cohesive GA plan that fulfils both current and future workplace requirements.
- Create a Furniture ideas document for client review. Arrange showroom visits and samples (where required). From this we develop a working schedule to consider both furniture costs and lead-times.
- Review the Furniture schedule with client and D&B to ensure we hit correct budget and lead-time requirements.
- At point of project ,oversee the full installation of furniture including checking for quality /snag issues and ensuring these are resolved quickly.
- Create an accurate O&M Manual for client that shows all manufacturers and any cleaning /maintenance info.
- Post install (Day 2) – help with any smaller requirements and info /training for correct chair / monitor arms set up.

“
Do the hard
jobs first.
The easy jobs
will take care
of themselves.

Who Work With Us?

Think Furniture are furniture specialists. We only work with furniture (not stationery / office machines or building works) and have over 40 years of industry experience. We aim for a highly efficient transition from point of order through to delivery and installation with a Director of the Company being involved from start to finish. This ensures clear communication and quick decisions are always made.

We understand that any efficient project requires good communication and flexibility in terms of working well with other trades and the main contractor; so the scheme can be delivered on time and within budget. We have a high level of experience working alongside various building and fit out partners to ensure we integrate our install smoothly within their main program.

We work extremely hard to retain our existing clients which is why we place so much importance on “day 2” service levels. A furniture O&M manual will be issued to the client upon completion showing clear spec of all new furniture supplied in each area. This will assist the client for future product enquiries and warranty info.

All requests for information or pricing will be dealt with and responded by a Director of **Think Furniture**.

“
Coming
together is a
beginning,
staying
together is
progress,
and working
together is
success.”
