Think Furniture options shown above represent an initial suggestion sweep of suitable chairs to help form a standard selection. We can arrange for you to view or try out any of the proposed chairs at our manufacturing partners showrooms in Central London.

Any chair you purchase via Think is offered with a basic ergonomics (incl. chair functions) overview to any or all of your staff. Buying the chair is only half the story.....

Once you have selected a chair we will provide you with a colour chart to allow you to pick the colour that best fits your office environment.

Our independent status allows us to research the market place and find the right solution for our clients rather than having to 'force feed' a solution from a manufacturing partner. This same independence allows us to negotiate a competitive buy price whilst still maintaining high service levels.
