Think Furniture Ergonomic ranges are based on ranges from the leading manufacturers of both chairs and desktop ergonomic equipment.

All ranges are designed to provide high levels of ergonomic functionality.

Our independent status allows us to research the market place and find the right solution for our clients rather than having to 'force feed' a solution from a manufacturing partner. This same independence allows us to negotiate a competitive buy price whilst still maintaining high service levels.

For more info or a demo of any of the products shown above please call or e-mail,

Kind Regards

Tony King

Director
