

Product Specification

Design: 'Open'

Designer: PearsonLloyd

Luke Pearson and Tom Lloyd who first met while studying Furniture Design and Industrial Design respectively, at London's prestigious Royal College of Art, didn't form their multi award winning product and furniture design consultancy until 1997, having spent a number of years working independently of each other for highly acclaimed design studios. Both derive great joy and excitement from what they do; the surprises that they find along the way; materials and processes; team working; users and places; and pursuing the essential. They have created solutions for a variety of International clients, including manufacturers, consumer brands, and government organisations and are one of the most highly respected studios around today.

Features:

Open is an elegant, contemporary collection of soft seating, with chair and sofa sharing a formed, steel rod, base-frame aesthetic; angular and striking, lending a physical lightness to the appeal of the design. The moulded seat shells, and cushions with 'bull nosed' edge feature, and tailored upholstery, provide great comfort, precise shape, a simple pleasing form, and visual slenderness. Additionally, the chair can be specified with a headrest, and mounted on an equally striking, polished, four-star cast Aluminium swivel base. This slender Aluminium base also supports a range of low tables, to compliment the seating as well as universal dining/meeting height tables and a 'bar' height table.

Finishes:

Wire frames are finished in polished chrome as standard with white plastic feet. Swivel, cast base columns are also finished in polished chrome and the 4-star aluminium casting is polished as standard. Open can be upholstered in a wide range of contract quality fabrics or leather, but these ideally require a degree of stretch. Vinyl does not lend itself very well to this design. The upholstery department should be consulted where fabrics are of a non-stretch nature or require a backing.

Marketplace:

These are contemporary pieces with broad market appeal aimed at executive lounges, breakout or chill out spaces and reception areas on the one hand, and hotel lounges, hotel bedrooms, coffee lounges, and even airline airport lounges on the other. There is clearly a domestic appeal to this range as well, especially with the iconic looking swivel lounge chair with headrest.

Products available in range

A640
Lounge chair
Upholstered seat
Polished aluminium base with chrome steel centre column

Dimensions:
Overall 770h 780w 820d
Seat 460h
Weight 16.5kg
