

# Product Specification

## Design: 'Jaks'

### Designer: John Coleman

John Coleman has run his own studio since graduating from the UK's Royal College of Art in 1979, and his work has been extensively commissioned, exhibited and published worldwide. He now combines consultancy for leading UK manufacturers with teaching and external examining.

### Features:

Jaks works equally alone, or with its fun shapes interlocked and configured into exciting playful, tessellated patterns due to its modular nature and distinctive, graphic 'cross' shape. This is a simple form and construction that ergonomically provides seating for up to four people and facilitates meeting and greeting in informal spaces, or a comfortable seat for those who just want to take a break while having somewhere to perch their lap top.

### Finishes:

The simple form lends itself to the application of a wide range of upholstery finishes. Frames are finished in polished chrome as standard. Jaks can be upholstered in a wide range of contract quality fabrics or leather.

### Marketplace:

These are very contemporary pieces suitable for a myriad of uses and spaces in all manner of markets and environments, from breakout spaces in leisure, retail, education, hotel and corporate installations. This is a versatile design, which works in informal scattered arrangements and clusters.

### Products available in range
