Design: 'Kirkos'

**Designer: Wolfgang C R Mezger**

The multi award winning studio of German designer Wolfgang C R Mezger has produced a wealth of world class designs for a host of leading International Companies. Wolfgang originally trained as a typographer though, and enjoyed a period as a musician in a band before he embarked on his design studies; graduating in 1979 and winning the Braun award in 1980.

After years as a freelance designer working in collaboration with many eminent names and lecturing extensively in Berlin, London and his old design school in Schwabisch Gmund, he opened his own design studio in Eislingen.

**Features:**

Exclusively licensed from Davis Furniture Industries Inc for the UK & Eire only.

The striking, generous and elegant Kirkos stacking chair, takes its name from the Greek word, to encircle; a name that emphasises the unique shape that literally encircles the occupant, providing superb comfort.

This extraordinary design cleverly achieves its shape by taking one piece of plywood and moulding it into an encircling shape, which is then pressed together and connected under the seat. The compression of the shell must be controlled by the quality of the veneer and uniqueness of the mould that shapes it.

There are two variations as additions to the all-wood shell, each supported by a universal four-legged tubular steel frame. These are with seat pad and with fully upholstered liner. Kirkos is offered in a clear lacquered walnut veneer, coloured or stained beech veneer, white laminate with oiled edges and various upholstery covers, including leather. A luxurious chair for dining and meeting in leisure and corporate environments alike.

**Finishes:**

Frames can be finished in EPPC from our standard finishes or chrome plated. Shells are either clear lacquered walnut, clear lacquered or stained beech, or white laminate with sealed edges. Upholstery is available in a wide range of fabrics and leather.

**Marketplace:**

This is a luxurious stacking chair design with mid to high end and A&D market appeal. Kirkos is ideal for smart restaurants, executive dining and more luxurious breakout spaces where a great sit and exemplary style are required.

**Products available in range**

**A810**  
All wood chair  
Walnut, beech or white ply shell  
Tubular steel frame
