

CHEIL worldwide

Cheil , the marketing arm of Samsung, recently assigned Think Furniture to provide a well designed furniture scheme for their new UK headquarters. Working alongside the project designer we helped create a modern, fun and stylish place to work.

With a mix of vibrant colours and clean simple lines for the furniture elements the new workspace mixes good use of space with high levels of aesthetic and ergonomic functionality.

Works included:

- Cad and space planning
- Product consultation and budgets
- Furniture selection
- Procurement of furniture
- Project management and installation of all furniture elements
