

## University of Kent at Canterbury

When The University of Kent's Innovation and Enterprise Department wanted to create a fresh new look and brand identity for their meeting areas and workspace they turned to Think Furniture for some innovative ideas.

From the 'Bulb' (a multi functional work and meeting space) through to the iconic Plant Chair (now in pride of place outside the newly re-furbished reception), the whole area has been redefined as an attractive and eye catching place to work or visit.

### Works included:

- CAD design of furniture layouts.
- Product consultation.
- Furniture selection.
- Procurement and installation of all furniture.
